

## OUR WEEKLY FASHION LETTER

A TIMELY REVIEW OF THE LATEST MODES (Special) By JUDIC CHOLLET

### FACTS AND FANCIES.

#### The Waist Again Modish—Pongees in Smart Effects.

Sylphlike waists are again to figure in fashions. With the introduction of round skirts, no one will be surprised to learn this fact, for the two invariably go together. There need be no tightening of the waist. Just a little precaution in the fashioning of the undergarments to prevent bulkiness is all

The theater bonnet of the moment consists of a wire framed wreath of flowers and silver tissue with sweeping feathers or an aigret in front or at one side. The coil of hair forms the only crown of this hat in name only.

Flowered batiste makes the small girl's gown seen in the cut. The jumper waist is worn over a chemise of tucked muslin.

### HINTS FOR SPRING.

#### New Tailored Skirts—Checks and Men's Suits Smart.

The new skirts on spring tailor makes are short, reaching barely to the instep in many cases, and have side breadths cut with a broad circular flare. The apron front gore is held flat with a shaped box plait made solid, with one or three side ones. The effect of this front is that of a V upside down with the sharp point lacking.

Men's suits and "spring checks"—thin lightweight wools with much

that is necessary, though a little physical culture will keep down any thickening of the waist muscles.

The rough pongees have come back with re-enforcements. Last year the majority of them were plain, but this season they are plaided, blocked, striped and crossbarred.

The foulards shown are unlike those we are accustomed to wear. Few of the new designs are in floral effects. Instead the backgrounds are of wide or narrow stripes with geometrical or scroll patterns.

Leaf designs in the new embroideries are new and striking. The silk passementeries are really gorgeous, the flowered being of soft raised silk and chiffon.

white crossed by delicate lines of color—are smart materials. On the less dressy frocks which the men's suits turn out there is seldom any trimming other than that of stitching, but the

more elegant checked stuffs are trimmed slightly on the coats with taffeta in black or colors, with narrow soutache outlinings forming flat neck and cuff adornments. The majority of the coats are collarless, and sleeves are of both wrist and elbow lengths. If the coat is loose, there may be a narrow vest.

The sleeves for practical coats and frocks are not nearly so big as those we have been wearing.

When it comes to the odd coat, it is plain that the tan covert has not lost its prestige. There are many smart models, both long and short, but the shorter coats fall barely to the hip or the least bit below it.

A perfectly new model for tan covert or any lightweight cloth which would do for spring is a long, tight fitting paletot, which on the figure is extremely fetching. The seams of these run in long straight lines.

The child's coat illustrated is a model especially adapted for pique or any of the summer fabrics. It is trimmed with embroidery on collar and cuffs, and the double breasted fronts fasten with pearl buttons.

## Suburban or Country Residence.

A Beautiful Home For One Who Can Afford to Build It—Cost \$6,500.

Copyright, 1907, by John F. Lape, Rensselaer, N. Y.

FRONT VIEW.

FIRST FLOOR PLAN.

SECOND FLOOR PLAN.

This plan represents a commodious suburban or country residence with large well ventilated and sunny rooms. The first story has a central hall eight feet wide connecting with parlor, library, family dining room, dining room for help and passageway to porte cochere at the side of house. Adjoining the dining room for help is a large kitchen, and back of the kitchen are rooms for hired men, where they can come in or go out without disturbing the other occupants of the house. Between the kitchen and the family dining room is a large pantry with an inside way to the cellar. The second floor contains five large bedrooms, maid's room and bathroom, besides five clothes closets. Many open fireplaces provided with andirons for a wood fire during crisp, chilly weather bring a certain amount of cheer and comfort to indoor life. The construction is of frame, sheathed and papered, with a metal shingle roof. Estimated cost, \$6,500.

JOHN F. LAPE.
